

Contemporary Issues in Agriculture

Name: _____

Step 1 – Personal Connection

“Organic foods are best.”

“Genetically Modified Foods cause health problems.”

“Factory farms are destructive to the environment.”

“Cheap food is good food.”

You may or may not agree with these statements, but they are commonly heard. In the box below write your thoughts or opinions in regard to food production and consumption.

Step 2 – Research

Visit each of the stations around the room, each dealing with a common myth or truth regarding modern agricultural issues. Write your responses in the table below. If you need more room, please attach a separate sheet of paper.

#	Summary of Station	Personal Thoughts
1		
2		
3		
4		
5		
6

9		
10		

Step 3 - Questions for Analysis

Does your opinion from the front still hold true? Why/Why not?

If you had to explain these myths to someone - what would be the three myths you would bust? Why?
