

Sequim Mastodon Reading Questions

Name:

Directions: Answer the following questions in complete sentences, using evidence from the reading.

- 1) What was discovered in 1977? What did WSU professor Gustafson theorize?

- 2) What was the popular theory in the 1970s about when early humans came into the NW region?

- 3) What did Michael Walters discover? How did he discover this?

- 4) What other evidence did archeologists uncover to confirm Gustafson's theory?

- 5) Based on these other sites and the Manis site, what do we know about the Pre-Clovis people?

- 6) On a scale of 1-5, with 5 being extremely important and 1 being "who cares?," how important are archaeological discoveries such as these? Explain your reasoning (you will NOT be graded on your opinion, just the quality of your argument).
